Then the old folks and the young folks joined together in a series of outside games.

International Bible Students—The Judgment Day will be the subject of a lecture at the Arizona School of Music at 3 o'clock Sunday afternoon by E. H. Herrscher.

The mention of the Judgment day brings fear and dread to most people. It is a subject they do not like to think about and is most unwelcome. The general view of the Judgment day as taught by Christendom is responsible for this fear. Christendom sets forth that on the Judgment day Christ will come to earth seated on a great white throne, summon sinners to be judged, amidst great convulsions of nature. Earthquakes, opening graves, rending rocks and falling mountains; that trembling sinners will be brought from the depths of everlasting woe to hear their sins rehearsed; only to be again returned to eternal doom, and that the saints will be brought from heaven to witness the misery and despair of the condemned. All this is to take place within 24 hours.

Surely if this view of the Judgment day is correct there is cause for fear and trembling. But is this view correct? Is it reasonable? Is it Scriptural. Do the Scriptures hold out such a terrible arrangement as is taught by Christendom's creeds? What does the Bible really teach? What does the term Judgment mean? What does the term day mean? When will it come? Who will be the judge, and who will be judged and held accountable? Can it really be that this Judgment day is desirable, a day of blessing, a glorious day?

The above questions and many others will be made clear in the lecture, all who attend will have a better understanding of this subject.

Suggestions To The Farmer By a Valley Pioneer and Expert

(Continued from page 1, Section 2)

stead of feeding it to a cow that will make from 50 to 75 pounds of butter fat.

When we come down to just a few products, such as cotton, dairy products, as butter, canned milk and cheese, eggs, canned vegetables and perhaps canned fruit, then in between seasons cantaloupes and lettuce and perhaps a few other fresh vegetables, we are perhaps able to make an impression on the national market. There is another big field not to be overlooked in the near future and that is grapes, table as well as raisin grapes. I know we can beat California a long way on both, because we have a better soil and better, that is, more water, in a better climate, and it does not take so very much water, either, so you better go to it, but don't forget the main thing—you must come together. It can be done, notwithstanding the saying that you can't make a bunch of farmers stick together. The S. R. Y. W. U. A. has proved this to the contrary and California has demonstrated to a finish by now that consolidation of production and marketing is the only salvation for the growers.

One big drawback to the proper quick and healthy development of the valley is the present tenant system, because in most cases the term of lease is too short to be an incentive to the tenant to keep up even the fertility of the soil, even if only to go to the extent of proper crop rotation. If he only gets a one-year lease he will not do any more but try to get the best out of the soil and not put anything back. The lease should be made at least five years or longer, if possible, and the proper use of the fertility of the soil should be made a part of the contract.

LODGE NEWS

Woodmen of the World The boys sure did themselves proud on Monday evening when they pulled one of the finest affairs of the season in the Knights of Pythias hall.

It was the occasion of our annual bird feed and we sure had some feed and there was something over 200 people there and everyone present seemed to have had the very best kind of a time, with the possible exception of "Bill" Rlessey. Poor old Bill, he had the weight of the whole affair upon his shoulders, and so enthusiastic was he that he forgot to eat anything for a whole week preceding, and when he was confronted with those birds it was just too much for him, and when he finished the only thing that he could find to dance with was a broom; yes, it was pitiful, and him such a nice looking boy, too!

Sovereign Cheatham was another of those who did not receive the enjoyment out of it that he might have, he was too much afraid to get away from the kitchen door before the feed that he could not dance any; after the feed he was unable to do anything, and rumor has it that he kept his wife up the rest of the night hunting Sloan's liniment.

But, speaking the dance, it was one grand time from beginning to end, and everyone will be looking forward to the next affair.

Don't forget our meeting tomorrow night for we are going to initiate a nice class of candidates.

Security Benefit Association The Security Benefit Association met in regular session and held a very interesting and lively meeting. Much interest was taken by those present in the social nights that are to be given on the second and fourth Friday of each month.

There will be no meeting held on these nights. Arrangements will be made by the entertainment committee to have picnics, swimming parties, dances and other forms of amusement.

The newly appointed entertainment committee consisting of Brothers Pryor, Bayless and Sisters Hall and Thomas, are planning big times during the summer months.

Each member is requested to work with the committee and help make these social nights a success.

Next meeting night will be the regular night for business and initiation of a class of candidates and a good attendance is desired.

The Security Aid headquarters are now located at 215 North Central avenue, where any information concerning the order or the meeting nights can be had, and any suggestions as to the social nights or other business pertaining to the advancement of the order will be cheerfully given and received.
